Quality Policy		APPROVED: Wayne Cramer

QUALITY POLICY STATEMENT

The Company's Quality Assurance Policy ensures all documented procedures are implemented and maintained in accordance with BS EN ISO 9001:2015.

The Company is committed to continually improve the effectiveness of its Quality Management System in line with all the relevant legal and statutory requirements.

GW Energy Ltd provide energy saving control system products and services to businesses. All materials and products provided comply fully with agreed specifications, are fit for purpose and fully traceable.

GWE are committed to continuous improvement of the company's systems, processes, products and services to ensure the Quality of GWE's products and services are maintained at the highest possible standard for each project and have set quality objectives reflecting this commitment.

The company is dedicated to building long term professional relationships with its clients and suppliers by consistently exceeding agreed requirements and expectations in relations to its products and services. We recognise the importance of maintaining quality on an ongoing basis and acknowledge it is the responsibility of each individual within the business.

The Company allows full transparency of its quality policy to all its interested parties.

The Directors of the business acknowledge the importance of quality control and quality assurance and give their full endorsement to the quality management system.

Wayne Cramer, Managing Director
