

3 Bedroom House

Domestic Case Study EMH63

For a greener more affordable future

CONTEXT

Mrs Bartin invested in an EMH63 eco-max home using to reduce her incoming voltage. Due to the overvoltage in the UK, her lights kept tripping her mains electric.

eco-MOX TESTIMONY ✓

“My lights used to blow and trip off my electric box all the time but since having my ECO-MAX-HOME Voltage Optimiser fitted last year it’s never happened once. I’m doing my bit for the environment and my electric bill has gone down over £15 a month as well!!!”

-Mrs Bartin, Sheffield
