

4 Bedroom House

Domestic Case Study

For a greener more affordable future

CONTEXT

Mrs Wooley invested in an EMH63 eco-max home using to reduce her incoming voltage. Due to the overvoltage in the UK, she was paying for wasted energy and was looking for a solution to reduce her bill.

eco-MAX TESTIMONY

“Since having my ECO-MAX-HOME Voltage Optimiser fitted all my electrical appliances operate great, my light bulbs are lasting longer, and most importantly my electricity bill has gone down by over £20 a month, which I’m sure is also helping the planet!!!”

-Mrs Wooley, Sheffield

KEY METRICS

27%
Energy savings

£290
Money Saved
